

OUR PATENT REMEDY FOR YOUR BUSY OFFICE.

Sometimes you get the feeling that time is running out and jobs are piling up. On these occasions, you long for a reliable partner who you can depend on to relieve you of some of your work. This is where our versatile A4 black and white systems play a role: With the P-4020 MFP, P-4025w MFP or P-4026iw MFP you'll always be on top of things! These systems can print, copy, scan in colour and fax*, output jobs with up to 40 A4 pages per minute in the best quality and connect to mobile devices. Despite all this, they are still extremely easy to use. They're simply ingenious!

HIGHLIGHTS:

Pure speed: The compact P-4020 MFP, P-4025w MFP and P-4026iw MFP multifunctional systems certainly get through a lot of work – even when just printing and copying up to 40 A4 pages per minute. And their standard original feeder with Dual Scan function reads in up to 40 black and white and 23 colour pages per minute. Small-sized documents such as prescriptions and templates in A6R format are also processed fully automatically on both sides. Simply fast plus gentle on the original!

Quality is reality: The new systems not only impress with a captivating print quality of up to 1,200 x 1,200 dpi and a large paper capacity of 800 sheets (maximum), they are also characterised by a diverse range of security functions such as 'Private printing' or authentication via password or card reader and chip card*.

Great mobility: Even when you're not at your workplace, you can still access the print and scan functions using a mobile end device and our free Mobile Print app. Alternatively, you can also control the systems and execute your jobs via the Apple AirPrint protocol or Google Cloud Print. In addition, the P-4025w MFP and P-4026iw MFP also include a Wi-Fi-interface plus a Super G3 fax.

Extensive functions: All three systems make your day-to-day work easier, help to save time and protect the environment: The Skip blank pages function automatically filters out blank pages, saving both paper and money. The Continuous scan function allows more than 50 originals to be captured in a single operation. And, in the case of the P-4026iw MFP, additional software applications can be easily integrated via the HyPAS interface. Finally, Quiet mode ensures extremely quiet operation and spares your nerves at the same time. These are only a few examples of the many advantages offered by these versatile multifunction devices.
